

Together We Care

Helping Hands Hub: A community-led initiative that connects families/neighbors with local volunteers and services—reducing family caregiver burnout and isolation.

Family care partners are the backbone of our communities, but too often they face burnout, stress, and isolation. Team CarePal helps nonprofits meet them where they are, with tools that connect families and seniors directly to your programs, volunteers, and supports in one secure app.

Families can download the free app, find your profile, and subscribe to you, OR you can provide your custom sign up link.

- They can join your Helping Hands Hub
- Access your programs, resources, and supports.
- Coordinate care with their own family network (newsfeed, calendar, tasks, journal)
- Connect with local healthcare and community supports
- Track burnout and get tailored resources

Expand Your Reach and Impact:

- **Stay Connected** – Give families one private, secure place to stay engaged.
- **Mobilize Volunteers** – Match volunteers to real community needs.
- **Promote Programs** – Share your events and services with the families who need them most.
- **Provide Support** – Offer personalized education and resources at the right time.
- **Strengthen Reporting** – Use caregiver feedback and burnout data to build stronger funding cases.
- **Expand Impact** – Link families to hospitals, care homes, and other community supports.

Flexible Pricing As you Grow
