

Together in Care

Helping senior care homes build stronger relationships with families/care partners, reduce staff workload, and improve resident experience.

Care partners provide up to 40% of care after their loved one enters continuing care but often feel left out due to limited updates and involvement. Team CarePal transforms family communication in continuing care by simplifying updates and building trust with care teams.

Families join your Family Connection Hub inside the free Team CarePal app.

- Join your care home's hub. See volunteer opportunities in the home.
- Receive updates, announcements, and event info
- Coordinate visits and care with family (calendar, messaging, shared journal)
- Access family education and resources
- Track burnout and get tailored supports

Strengthen Family Engagement:

- Engage families – Keep everyone informed and connected in one private digital space.
- Reduce repetitive calls – Post updates, schedules, and answers to common questions.
- Build trust & transparency – Consistent communication improves family satisfaction.
- Support care planning – Families become better partners in resident care.
- Attract volunteers and match with opportunities in the home using the app
- Demonstrate impact – Use caregiver data to support reporting and accreditation.

Flexible Pricing As you Grow

150*	300*	500*
\$400/mo	\$700/mo	\$1,200/mo

*Number of families
